WHO TAKES THE THRONE?

RULES:

Select characters from the survivors list above and place them in the episode you believe they will die. You can only choose a person once (yes we know people come back to life), but you can leave survivors. Correct survivors left on list are worth 1pt each Every death predicted is 1 point. If a death is guessed in the correct episode, multiply that point by episode number.

"Nobody" can be used multiple times and is worth 10 pts (ex. "nobody" from this list dies in episode 3; 10 points X 3 = 30pts for round)

Who takes the throne is worth 50 pts. Split throne is worth 25 pts per person. "Nobody" in throne (destroyed, disbanded, etc) 50 pts. The Night King in throne: 100 pts.
